CREATIVE®

Innovative. Breakthrough. Revolutionary.
Those are just a few ways to describe the solutions that Creative brings to you. That's why we're leading the way in digital entertainment.

How do we do it? By empowering you with choice.

Music to your ears.
Creative offers you the widest selection of MP3 and portable media players available. ZEN™ players let you select from more styles, colors, features and content sources than you thought existed.

Find your ZEN by choosing from accessories designed to fit your player and your lifestyle. Dock your ZEN in a portable speaker system that looks as good as it sounds. Or keep it to yourself using a pair of sleek Creative headphones.

Take it home with you.
Check out award winning Creative speaker systems—from basic stereo solutions to a top-of-the-line surround sound system for any application.

Hear to believe.
The new Sound Blaster X-Fi™ with Xtreme Fidelity™ is the most powerful audio technology...period. It's the beginning of a new era in digital audio.

Instantly, your MP3 files sound better than their original CD recordings. Internet movies sound as good as multichannel DVDs. And games? You'll hear sound in the way the game developers intended. Plus, you'll get faster frame rates—in some cases, up to 40%.

And so much more...
Talk face-to-face over the Web and record video messages using a compact Creative webcam. Build a cordless desktop with wireless headphones, mice, keyboards and more.

We'll continue to push the boundaries of our imaginations to inspire yours. Stay tuned.

YOUR MUSIC. YOUR MOVIES. YOUR PHOTOS.

At work or play. At home or on the road. Creative has an MP3 player to fit you.

ZEN Vision:M was designed for people like you—those who walk a step or two ahead of the pack.

Get yours in one of five vibrant colors. Then set the color menu theme to match your player.

Watch...longer. View your videos for four hours straight on a single battery charge. Need to power up? Connect the included power adapter.

Tune in to FM radio on the go. Creative ZEN players let you listen—even record—your favorite radio programs.

Get the content you want...and know it's going to work on your player. ZEN Vision:M supports the widest array of pay-per-download subscription services.

Glide a finger along the intuitive vertical touch pad and watch the 2.5 inch LCD screen burst to life. Photos, album art and menus come alive in 262,144 colors. The patented ZEN user interface is fast and easy to use. You'll understand why it has become the industry standard.

At last, here's a player that you can make your own.

CARRY MUSIC, PHOTOS, VIDEOS IN YOUR POCKET

Hit the ON button and watch the crowd around you grow. The ***ZEN Vision*** player's high-res 3.7 inch 640 x 480 pixel screen is a sight to behold. Photos and videos are sharper than ever.

Relax and watch all your videos wherever you are. Load your photos into your ZEN Vision using the compact flash slot. Use the TV output and connect it to a television. Now everyone in the room can watch along with you. Movies and photos will look crisp and clear on the TV screen.

Play up to 15,000 songs. Watch up to 120 hours of videos. Share tens of thousands of photos. Create slideshows set to your favorite tunes.

It's your all-in-one digital media player. You get all this portability and power in the back pocket of your jeans.

IT'S A POWERHOUSE

Take a look at ***ZEN Sleek Photo***. Tote along tens of thousands of pictures in this cool, brushed aluminum MP3 player.

When it's time to share, no one will miss out. The super-sharp OLED (Organic Light-Emitting Diode) screen is viewable from any angle…no matter how big a crowd you have gathered around you. Savor every last detail thanks to the 262,144 color display.

Load up the 20GB capacity with up to 10,000 songs. Then navigate your playlists—photo albums, too—using the intuitive vertical touch pad.

You get 19 hours of battery life to play music, share photos, use the built-in organizer, listen to FM radio, record memos and so much more.

ZEN Sleek Photo is your workhorse MP3 player and photo viewer.

IT DOESN'T JUST FIT IN YOUR POCKET

It gets lost in your pocket. It's that small. Get your fingers on the tiny, colorful Creative ***ZEN Nano™ Plus***.

Load up to 500 songs into the skip-free 1GB MP3 player (or 250 songs on 512MB). Play back your favorite songs in order or in shuffle mode. Listen to FM radio, too. Plus, you can transfer songs from your CD player or any audio source to your ZEN Nano Plus. No PC needed.

Also included with ZEN Nano Plus are a sports armband and carrying case that secure your player to your arm when you're on the go.

Looking for a basic player? Opt for ***ZEN Nano***. You get many of the same features as Nano Plus at an outstanding value. Load up to 500 songs from your PC. Enjoy skip-free playback, shuffle, and more with the 1GB or 512MB player.

Load. Snap. Play. It's easy to carry your favorite songs with you. Connect ***MuVo® TX FM*** directly to your PC and load up to 500 songs. Snap it into the battery pack, and play your tunes. Mix it up using the shuffle option or listen to FM radio. Armband and carry case included.

THESE SPEAKERS TRAVEL WITH YOU

Take your music on the road. Take along a pair of Creative travel speakers. On these pages, you'll find the one that's best for your MP3 player and your lifestyle.

Dock ZEN Micro or ZEN MicroPhoto in the ***TravelDock™ ZEN Micro*** portable speaker system, and play your music out loud. The sleek design integrates four NeoTitanium™ microdrivers, a charging station and a stand that flips to cover your player when you carry it around.

For such a small, go anywhere system, you may not believe the sound quality. NeoTitanium microdrivers pack rich, full sound into a compact design. Plus, there's a connector to add a subwoofer for booming bass.

Adjust the volume, mute it, or change tracks wirelessly. The handy remote lets you do it all from more than 20 feet away—that includes wireless control of your ZEN MicroPhoto.

These speakers deliver 25 hours of music playback from four AA batteries.

Open up and say, "Wow!"

Open the cover on your ***TravelDock 900*** portable speaker system. Connect your Creative ZEN Nano Plus, Apple® iPod® Shuffle or other flash player using the integrated line-in connector. No cables needed.

The pair of NeoTitanium microdrivers can handle all sorts of volume. They're so crisp and clear, you really have to hear them. All the highs, all the lows...and everything in between.

Close the cover, and keep your speakers safe from bumps or drops.

TravelDock ZEN Micro

Travel Sound 900

TWIST AND SHOUT

The lightweight ***TravelSound® 400*** portable speaker system twists open for music out loud, then twists closed so you can drop it in your bag.

Superior NeoTitanium microdrivers pump out your tunes or DVDs. Connect it to your MP3, CD or portable DVD player, and enjoy crisp sound for 35 hours straight.

Don't let the weight fool you

At a scant 10 ounces, you can tote the ***TravelSound 250*** portable speaker system anywhere. But it still packs an audio punch.

Plug in your MP3 or CD player, and listen to music out loud. The dual NeoTitanium microdrivers can really kick out the jams.

Rock on and on…up to 25 hours on a single set of 4 AAA batteries. When you're done, TravelSound 250 packs up for easy transport.

It puts the BOOM in boombox

Play your life out loud. Dock your favorite MP3 player—Creative ZEN MicroPhoto, ZEN Micro, Apple iPod, iPod Mini and more—in the ***Cambridge Soundworks PlayDock® MP3*** portable speaker system, and crank it up. It's ideal for outdoor BBQs, tailgate parties, or a day working in the yard.

Two main speakers and an internal bass speaker deliver great stereo sound with clean, strong bass.

The powerful, rechargeable battery lasts up to 10 hours, and comes with an AC adapter.

GO WIRELESS ON MUSIC, MOVIES AND MORE

Slip on Creative ***SL3100*** or ***CB2530 Digital Wireless Headphones*** with Bluetooth technology. No cords or cables to get tangled up in. And they're truly plug and play. Connect the Bluetooth audio adapter to your MP3 player or other audio output. It communicates with your headphones without wires.

Listen interference free. Stream music at 48 kHz with full digital transmission and error correction. These headphones use Adaptive Frequency Hopping (AFH) to eliminate static caused by nearby wireless devices. And to top it off, the transmitters shut down whenever the headphones are not in use to save battery power.

If low-profile is what you are looking for, opt for the sleek "backphone" design of the **SL3100** headphones. Plus, you'll listen more, charge less. Get up to eight hours of continuous play from the rechargeable battery.

The ***CB2530*** headphones deliver high quality stereo sound in a comfortable and stable headband style.

These headphones are comfortable enough to wear for hours at a time.

Bluetooth®

Bluetooth Audio Adapter

SB2530

SL3100

TAKE THESE HEADPHONES ON THE ROAD

Shut out crying babies and noisy neighbors on your next flight. The sleek, comfortable ***HN-700 Noise Canceling Headphones*** block out background noise so you can focus on your music and movies.

Leatherette earpads gently hug your ears for hours of comfort. Use the included airline adapter and tune in to in-flight entertainment. When you land, fold up your headphones and drop them in your bag.

Put your gaming skills to the test

The ***Fatal1ty 2020 Headset*** was built for gamers. A plush headband and earpads let you play for hours in total comfort. Sound quality is top notch. Talk to your team using the military grade mic. More on page 31.

10 Shades of cool

Grab a pair of earphones to match your ZEN or other MP3 player or your mood. Creative ***EP-480 Earphones*** come in your choice of 10 vibrant colors. And they sound as good as they look.

Enhance your music experience

Try Creative ***EP-630 Noise Isolating Earphones***. You won't believe the bass response from such tiny speakers. And the highs? Crystal clear. Three earbud sizes are included for a custom fit.

Chat on the Web or taunt your opponent

Whether you're gaming or gabbing, you want great sound. Opt for the ***HS-600 Headset***. It delivers superior sound and voice reproduction.

Keep a low profile using the ***HS-400 Headset***. The slim design is unobtrusive when playing games or using your favorite VoIP software.

Don't like anything on your head?

The flexible behind the neck design is easy on your ears and your hairdo. Enjoy full sound from ***HQ-140 Headphones***. Gold plated plug and oxygen free copper cabling ensure clear audio connections.

CREATIVE

IMMERSE YOURSELF IN SOUND

Take a look at the full line of speakers from Creative. Whether you're looking for the absolute best surround sound system, or a great pair of desktop speakers, you'll find them on these pages.

Maybe you know how high end sound can improve your gaming experience. But you don't want to become a junior electrician to install your sound system. Enter the ***GigaWorks™ ProGamer G550 Wireless*** 5.1 speaker system. Based on the award winning GigaWorks ProGamer G500 system, you get all the great audio quality...and more.

Simply install your front speakers—including the performance tuned subwoofer that delivers bass you can feel. Place the rear speakers behind you without running wires across the floor. The rear speakers come with their own wireless receiver. No more ripping up carpet, or tripping over cables every time you get up. Plus, you can control it all using the wireless remote.

I can hear you...

Surround yourself with sound so you can hear them trying to close in on you. The award winning ***GigaWorks ProGamer G500*** speaker system is performance tuned for realistic gaming. Each speaker is ported to give you thumping bass response and realistic sound. And you'll enjoy one touch control using the wired controller.

5.1 SPEAKER SYSTEM

310 WATTS TOTAL RMS POWER

620 WATTS TOTAL SYSTEM POWER

System power is a summation of the peak power from a sine wave delivered to the speaker system simultaneously for a brief instant.

ProGamer G550 Wireless

GigaWorks T20 Stereo Speakers

Set up a powerful system that looks and sounds tough. The ***GigaWorks T20*** stereo speaker system packs a serious gaming punch. The true two-way speakers contain an expressive tweeter and a high-performance midrange driver to recreate that realistic battle experience. Your PC music and movies sound great, too.

LOOKS AND BRAINS...THIS SYSTEM HAS IT ALL

The top-shelf ***I-Trigue® L3800*** system's eye-catching brushed aluminum finish accents desktops and entertainment centers alike.

Superior audio technology is built in. Lateral Firing Transducers (LFT) pump out solid midrange. NeoTitanium microdrivers deliver clearer, more natural sound than ordinary systems with aluminum drivers. Speaker bi-amplification puts two amps in each speaker to drive the LFT and microdrivers for maximum power.

Control it all...wirelessly. Place the wireless remote wherever it's convenient. You get fingertip access to volume, mute and more. Connect your ZEN MP3 player to the desktop receiver, and control that, too. You don't even have to turn on your PC. Just rock out!

Power. Crystal clear sound. And a sleek stylish look. Get it all with the I-Trigue L3800 system.

2.1 SPEAKER SYSTEM

48 WATTS TOTAL RMS POWER

100 WATTS TOTAL SYSTEM POWER

I-Trigue L3800

SOUNDS GOOD, LOOKS GOOD

The ***I-Trigue 3400*** 2.1 speaker system can handle whatever you throw at it—music, games, movies. And it does it with a flash of style. Grab your system in cool black and silver, white, red or dark blue.

One spin of the wired remote's volume wheel, and you'll hear the exclusive NeoTitanium microdrivers go to work. Rich sound explodes from the speakers.

Connect your MP3 player to the auxiliary input, and leave your PC off. Or connect the system to your favorite game console and savor every last whizzing bullet and bomb blast.

These I-Trigue systems deliver performance and value

No matter which system you choose—***I-Trigue 2200*** or ***I-Trigue 3220*** you'll enjoy everything that makes a Creative audio system awesome.

Take a look at the I-Trigue 2200 stereo system: NeoTitanium microdrivers and a cutting edge design look great next to your PC or on your mantel.

Opt for the I-Trigue 3220 2.1 system, and get just what you need: speakers that deliver crisp highs and full bass response, wired remote, and that cool, sleek I-Trigue look.

I-Trigue 3400

I-Trigue 2220

I-Trigue 3220

BIG SOUND, SMALL PRICE TAG

The Creative ***Inspire® T3030*** 2.1 speaker system was designed with your budget in mind. Connect your PC or MP3 player, sit back, and enjoy. Each two-way satellite speaker houses an expressive tweeter and a punchy midrange driver. That means you enjoy a wider frequency response and more balanced vocals and instruments than ordinary dual-driver speakers.

Grab your stylish, budget friendly Inspire T3030 system.

Go bigger

Surround yourself with sound. Music and games spring to life using the ***Inspire T6060*** 5.1 speaker system. Two-way satellite speakers contain a separate tweeter and midrange driver for cleaner audio. The wood cased subwoofer packs some serious bass, too. Your games and movies will be booming.

Inspire T6060

Inspire T3030

SOUND THAT WON'T LEAVE YOU FLAT

Check out the space saving design of the ***Inspire 280*** stereo speakers. The high quality three inch drivers deliver detailed stereo sound.

The attractive flat panel design looks sharp next to your monitor. Plus, you can add sound to your desktop without sacrificing real estate.

Includes built-in power, volume and tone controls, a headphone jack, and fast, easy connection to your PC, notebook or MP3 player.

Inspire 280

**Monitor & keyboard not included.*

BREAK INTO 5.1 SOUND WITHOUT BREAKING THE BUDGET

Treat yourself to the ***SBS 580*** 5.1 speaker system. Experience the full surround sound of higher end 5.1 systems for a fraction of the cost.

The slim satellites look great next to your flat LCD monitor. The integrated front panel controls let you adjust volume, bass response and more.

Looking for a simple setup? Opt for the ***SBS 380*** 2.1 speaker system. You'll get all the crisp, clear sound out of two satellite speakers and a wood cased subwoofer.

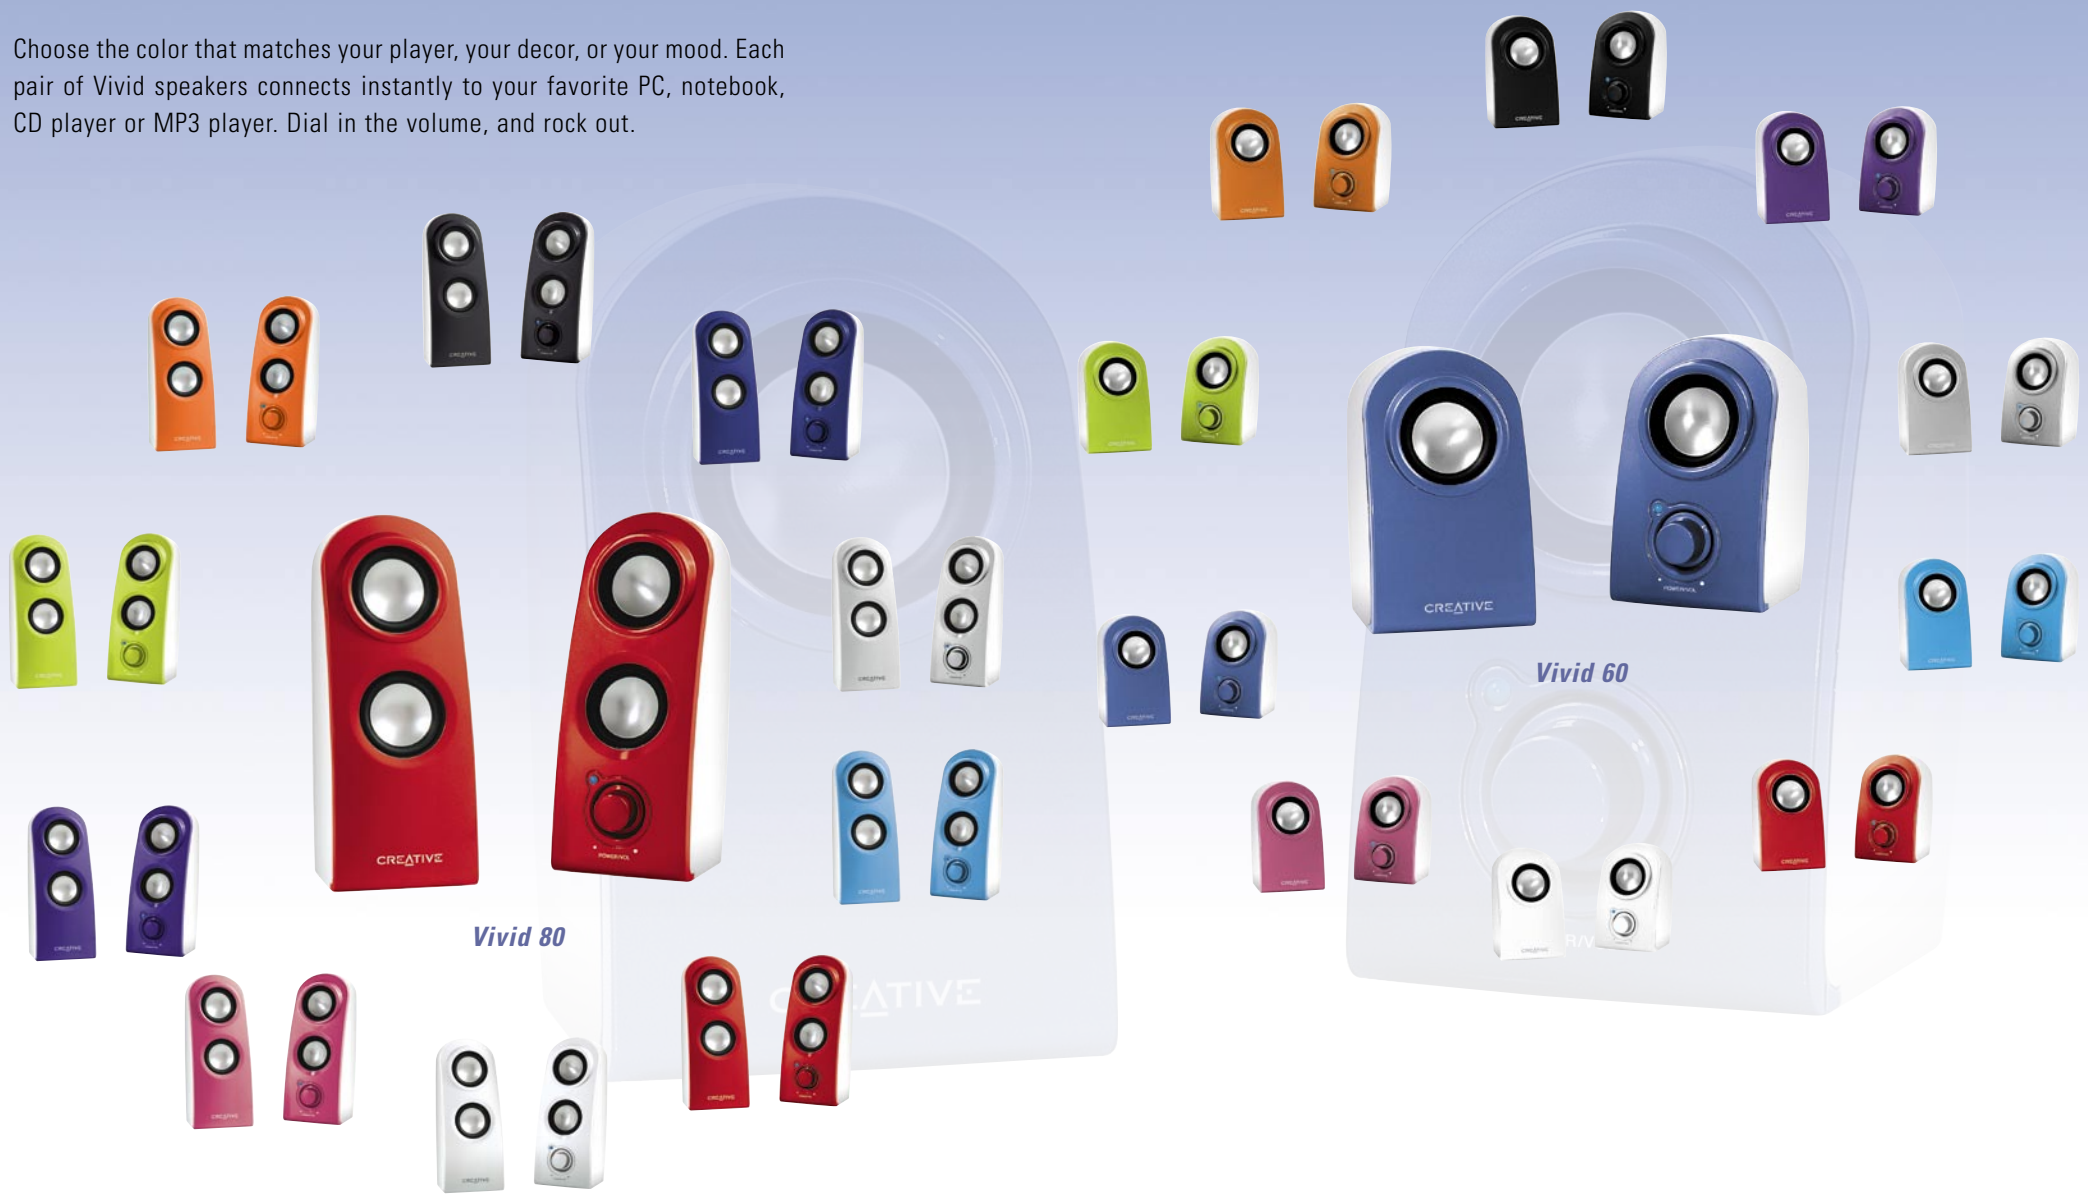
Connect the SBS 580 or SBS 380 system to your PC, notebook or MP3 player. How you got all that sound for so little will be our little secret.

SBS 380

SBS 580

COLOR COORDINATE YOUR MUSIC

Choose the color that matches your player, your decor, or your mood. Each pair of Vivid speakers connects instantly to your favorite PC, notebook, CD player or MP3 player. Dial in the volume, and rock out.



CREATIVE

CHANGE THE WAY YOU HEAR

You already know how awesome Sound Blaster products are. They've consistently set the industry standard for mind blowing PC audio. The new Sound Blaster X-Fi with Xtreme Fidelity is the most powerful soundcard to date...period. In fact, no amount of prose will do it justice. You must hear it to believe it.

Create a virtual nine speaker system using a pair of ordinary headphones. Sound Blaster X-Fi technology pulls the sound out of the headphones, and accurately positions it in the space around you. The surround sound experience is so realistic you'll forget you're wearing headphones.

Instantly, MP3s sound better than the original CD recordings. Movies downloaded from the Internet sound as good as DVDs. And games? Not only will you get the clearest, most immersive sound, you'll enjoy faster frame rates as well.

If you think motherboard audio is good enough...think again.

Sound Blaster X-Fi is the beginning of a new era in audio.

Sound BLASTER X-Fi™

Maximize Your Music, Movie and Game Audio with Xtreme Fidelity!

Xtreme Fidelity MP3 Music

Download MP3s from the Web? In order to achieve faster transfer speeds, songs have to be compressed, which means quality is sacrificed. Highs are lost. Lows are cut off. And you get less than stellar sound quality. Sound Blaster X-Fi repairs the damage caused by compression and remasters the MP3s. Sound Blaster X-Fi makes all your MP3s sound better than the original CD recordings.

Xtreme Fidelity Games

Sound Blaster X-Fi takes your gaming to a whole new level. You get truly immersive audio realism and faster gameplay. Sound Blaster X-Fi puts you in the middle of the action with absolutely realistic sound. What's more, you can get up to a 40% increase in frame rates. Since Sound Blaster X-Fi is handling the audio chores on the X-Fi processor, it frees up your CPU to focus on the game.

Xtreme Fidelity Movies

Sound Blaster X-Fi turns your PC into a high end home theater system. Movies may not match your surround sound system. Buy a 5.1 DVD, play it through your 7.1 system, and you're not using two of your speakers. Sound Blaster X-Fi ensures that your movies match your system so all your speakers are pumping out sound. Sound Blaster X-Fi will even playback stereo DivX movies downloaded from the Internet in glorious 7.1, too. The audio from any movie is analyzed and directed to the proper speaker, giving you the absolute best surround sound experience.

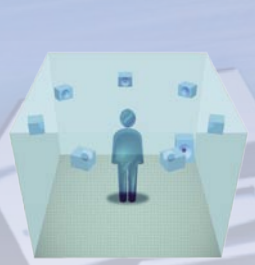
Want to crank up the volume without disturbing your family or neighbors? With Sound Blaster X-Fi you can slip on a pair of headphones without waving goodbye to the surround sound. Hear all the action with nine virtual speakers delivering a full surround sound experience over ordinary headphones.

Xtreme Fidelity Music Creation

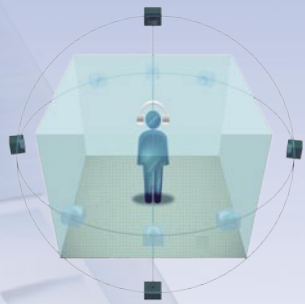
Sound Blaster X-Fi brings the sophisticated recording capabilities of a professional recording studio to your PC. Convert any audio to any resolution using a Sample Rate Conversion engine that's at least 300 times more precise than any previous Sound Blaster. Digitally matched recordings are supported in resolutions from 44.1kHz to 96kHz and you'll get the most precise ASIO recording with latency as low as one millisecond. Create your own music with up to eight different 24-bit hardware effects. Enjoy unprecedented hardware synthesis capabilities with 24-bit SoundFont® sampling. And, for the first time, create multichannel 3D MIDI.

X-Fi CMSS-3D

The Creative X-Fi Xtreme Fidelity audio processor intelligently remixes the audio into surround sound to match your speaker system (including headphones). Using advanced techniques to extract specific audio elements, your music, movies and games sound more alive than ever!



X-Fi CMSS-3D Surround



X-Fi CMSS-3D Headphone Expansion

X-Fi 24-bit Crystalizer™

Listen to your MP3s or WMAs, or watch DivX movies you've downloaded, without the diminished quality of compressed audio. Sound Blaster X-Fi remasters your MP3s and DivX movies, restoring the detail lost during compression. Your music will sparkle, sounding cleaner and smoother. Your movies will come to life with rich, realistic soundtracks.

EAX® ADVANCED HD™ 5.0

The new generation in gaming audio used by the top game developers, EAX ADVANCED HD 5.0, drives games to a whole new level. With 128 voices and precision surround sound, gaming audio is truly cinematic. Plus, EAX MacroFX™ realistically simulates close-up audio, like bullets or laser blasts passing close by. EAX ADVANCED HD 5.0 is packed with features that use the full power and potential of your Sound Blaster X-Fi, for the most engaging, immersive audio ever from a game.

SOUND BLASTER X-Fi...HEAR TO BELIEVE

With power equivalent to a 3.6GHz CPU, Sound Blaster X-Fi is the most powerful audio processor ever developed...period. And all that power is dedicated solely to running your audio. But power is only half the story.

Sound Blaster X-Fi is the first technology to feature a completely flexible and modular architecture. Whether you're listening to music, playing games, watching movies or creating your own music, Sound Blaster X-Fi dedicates all the power of the audio processor to the task at hand, for amazing audio quality.

Xtreme Fidelity Music
Remaster MP3s to sound better than the original CD recordings. Restore the rich audio detail lost during the MP3 or WMA compression process.

Xtreme Fidelity Gaming
Get the fastest, smoothest gameplay possible. Immerse yourself in a sphere of sound with nine virtual speakers through standard stereo headphones, or 128 virtual speakers through your 5.1 or 7.1 home speaker system.

Xtreme Fidelity Movies
Listen to punchy and explosive soundtracks in surround sound through regular headphones or multichannel speakers—even stereo DivX files!

Xtreme Fidelity Music Creation
Musicians take note. Sound Blaster X-Fi gives you the highest quality, most feature-rich recording available in a consumer solution.

Sound Blaster X-Fi Elite Pro

Built for the true audiophile as an integral part of your PC home entertainment gear, Sound Blaster X-Fi Elite Pro delivers Xtreme Fidelity MP3s, movies, games and more. The 64MB of X-RAM frees up your PC's processor to handle your applications, so you'll experience a huge increase in the speed and quality of your digital entertainment.

Musicians love Elite Pro for its sophisticated recording features and external audio connectivity. It's like having a mini studio built into your PC. Plus, you'll enjoy convenient connections for your musical instruments, headphones and other audio devices using the external Input/Output console. Professional quality digital analog converters (DAC) are included for even clearer music playback. Get your hands and ears on Sound Blaster X-Fi Elite Pro!

Sound Blaster X-Fi Fatal1ty

Play like a pro. Johnathan "Fatal1ty" Wendel uses this card to capture First Place wins over and over. Think of how it can help your game. The kicker? Sound Blaster X-Fi Fatal1ty has 64MB of X-RAM built in. You'll get a big, immersive sound and faster frame rates. Since Sound Blaster X-Fi Fatal1ty is handling all the audio chores on the Creative X-Fi Xtreme Fidelity audio processor, it frees up your CPU to focus on the game.

Sound Blaster X-Fi Fatal1ty comes with an internal drive bay, giving you easy access to headphone, optical inputs and more. You'll love the sound quality and faster gameplay. Treat your ears to a truly immersive gaming experience

Sound Blaster X-Fi Platinum

Listen to your MP3s in surround sound. Enjoy DivX stereo movies presented in DVD quality surround sound. And your PC games sound awesome. Platinum delivers it all. With the convenience of an internal I/O drive, Sound Blaster X-Fi Platinum is designed for easy connectivity of headphones and other audio devices in a snap. Plus, the included IR remote gives you wireless control over your music and movies. The audio quality of this incredible PC entertainment package will shatter your imagination.

Sound Blaster X-Fi XtremeMusic

Put the power of Xtreme Fidelity inside your PC. Install the Sound Blaster X-Fi XtremeMusic card and gain all the top-shelf sound quality of Sound Blaster X-Fi. Your music explodes out of your speakers or headphones. Download movies and play them back in full DVD quality surround sound. Expand your gaming experience with immersive sound and faster gameplay. Sound Blaster X-Fi XtremeMusic is budget friendly, too. It's a great way to break into the awesome sound quality of Sound Blaster X-Fi—a new era in audio.

SOUND BLASTER POWER IN YOUR NOTEBOOK

Imagine...big, bold sound from a notebook. It's for real. Slide the ***PCMCIA Sound Blaster Audigy 2 ZS Notebook*** sound card into your notebook's PCMCIA slot, and hear your digital files come alive.

Your music sounds dramatically better with 24-bit ADVANCED HD™ playback. The included EAX music tools clean up poorly recorded MP3s and enhance bass response. Games get better, too. Get faster frame rates and more realistic sound effects with EAX ADVANCED HD 4.0 support. When you're home, connect your notebook to a 5.1 or 7.1 speaker system using a single cable.

Use one speaker system for all your digital media. Connect your Sound Blaster X-Fi or PCMCIA Sound Blaster Audigy 2 ZS Notebook sound card to your home stereo receiver using ***Home Theater Connect DTS-610***.

Listen to all your digital music—even content downloaded from Napster and Yahoo! Music. Enjoy multichannel gaming sound in your living room without the loss of performance experienced with Dolby® Digital Live. Watch PC movies with cinematic surround sound…all through one easy connection to your home theater.

PCMCIA Sound Blaster Audigy 2 ZS Notebook

Home Theater Connect DTS-610

THE STANDARD IN PC AUDIO

As PCs become the hub of home entertainment, built-in motherboard sound holds you back from getting the best entertainment experience. You may have thousands of MP3s, movies and all the best games on your PC, but the sound quality just stinks. Step up to Sound Blaster and get the most out of your music, movies and games.

Sound Blaster Audigy SE gives you crisp, clear 24-bit ADVANCED HD audio quality and realistic EAX ADVANCED HD game sound effects that you just can't get from basic motherboard audio.

Get the same great audio experience without opening your PC. Connect ***USB Sound Blaster Live! 24-bit External*** to your PC or notebook to enjoy 24-bit ADVANCED HD audio quality and EAX ADVANCED HD game sound effects.

Step up to ***Sound Blaster Audigy 4*** for even more realistic EAX® 4.0 ADVANCED HD™ gaming sound effects, multichannel Dolby Digital® EX and DTS-ES™ movie surround sound, plus wireless control of all your music, movies and pictures with the included IR remote and easy-to-use Entertainment Center software.

Sound Blaster Audigy 4

TAKE YOUR GAME TO THE NEXT LEVEL

Johnathan "Fatal1ty" Wendel has taken more First Place FPS game wins than some can count. He's the most successful professional gamer in the world. That's why Creative partnered with Fatal1ty to create a full line of the best pro-gaming solutions.

In a growing field of competitors just waiting to take you out, you can't afford to mess around. The Fatal1ty-Creative partnership exists for one reason—to give you the tools you need for total gaming domination.

FATAL1TY

"The features of each Creative Fatal1ty product have been optimized and approved by me to give you that critical edge against the competition."

Johnathan "Fatal1ty" Wendel

Sound Blaster X-Fi Fatal1ty

Hear them before you see them. And more importantly, before they see you. The secret? Sound Blaster X-Fi Fatal1ty full-on immersive audio.

In addition to the most powerful audio processor available, it has 64MB of X-RAM built in for accelerated gameplay. You'll get a big, immersive sound and faster frame rates. Since Sound Blaster X-Fi Fatal1ty is handling all the audio chores on the Creative X-Fi Xtreme Fidelity audio processor, it takes the load off of your CPU to let it focus on the smooth, fast frame rates.

The speed and realism is like nothing you've ever experienced before.

Fatal1ty 2020 Headset

Put your skills to work using the Fatal1ty 2020 Headset. Plush headband and earpads mean you can game for hours in total comfort. Sound quality is top notch. Paired with the Sound Blaster X-Fi Fatal1ty sound card, it's even better. You'll experience a virtual 9 speaker surround sound system. Hear them coming...even above or below you.

Commands are critical. You said "GO!" Your team heard "NO!" And you lost the round. Not with the Fatal1ty 2020 Headset. Issue orders to your team using the included military grade microphone for the clearest voice reproduction even in the heat of the battle.

Fatal1ty 1010 Mouse

To play your best, use what the best use—the Fatal1ty 1010 Mouse. The ingenious G-Weight™ modular weight system is the ultimate way to customize your gaming experience on the fly. The high definition HD-Optix™ engine enables deadly accuracy in any game. RapidRes™ with visual resolution indicator takes full advantage of HD-Optix power to let you switch instantly between optical resolutions (400/800/1600 CPI). The SpeedWire™ cable enables the fastest possible connection to your PC ensuring every move and motion is executed flawlessly.

For even greater precision, opt for the ***Fatal1ty 2020 Mouse*** with HD-Optix Laser.

CONTROL YOUR PC OR NOTEBOOK IN STYLE

To play your best, use what the best use. The ***Fatal1ty 1010* Mouse** was designed with every detail scrutinized by the world's top FPS PC gamer Jonathan "Fatal1ty" Wendel.

The G-Weight™ modular weight system, high definition HD-Optix™ engine, RapidRes™ with visual resolution indicator and SpeedWire™ cable all work together to deliver gaming domination.

You'll give this mouse a glowing review

The Creative ***FreePoint Electra*** optical mouse really shines...literally. The Electra Luminous glow technology lights up the mouse body and scroll wheel with a cool blue hue. The stylish design is ideal for both left- and right-handed users. Get precise tracking on any surface thanks to the 800 dpi optical sensor.

Take these mice on the road

Take hold of the **FreePoint Travel** wireless mouse. It uses the 2.4GHz wireless frequency to connect to your PC. And it's totally portable. Drop it in your briefcase when you're away from the office.

The **FreePoint Travel Mini** gives you all the FreePoint Travel offers in a tiny package. It's an ideal companion for mobile warriors. You'll know why if you've tried to use a regular mouse on an airplane tray table.

Both mice use a wireless transmitter that connects to your notebook's USB port. Store the small transmitter inside the body of the mouse for easy transport.

TIRED OF CORD TANGLES?

Free yourself from cords, and rid your desktop of clutter. Gain instant freedom using the ***Desktop Wireless 9000 Pro*** keyboard and mouse combo. Both use the 2.4 GHz wireless frequency to keep you in control of your PC. These smart devices are continuously scanning 16 separate channels to guard against signal interference. Celebrate your freedom.

Desktop Wireless 9000 Pro

Creative Prodikeys PC-MIDI

Creative ***Prodikeys® PC-MIDI*** is a USB keyboard that lets you do more than type—it lets you create. The standard keyboard features programmable hotkeys, enhanced function keys, media playback and volume control wheel. When inspiration hits, simply lift off the wrist rest to expose the 37 music keys. Load the included software suite and play.

DON'T PUT UP WITH THAT CROP

See it all using the Creative ***Live!® Motion*** webcam. No more cropping. No more hunching to get your face in frame. This webcam's MaxView™ technology has you covered.

You'll enjoy a full view not found in any other webcam. The exclusive Smart Face Tracking activates auto pan and tilt to smoothly track your movements with its precision motor. The ultra wide-angle lens with pan and tilt gives you unmatched 200-degree horizontal and 105-degree vertical viewing area for the most realistic video messaging experience.

Place the webcam on almost any surface using the patent pending Multi-Attach base.

Talk with better clarity and more privacy. Slip on the included over-the-ear headset. The lightweight top places the mic close to your mouth to capture every word.

BE THE CENTER OF ATTENTION

The ***Live! Ultra*** webcam's ultra wide-angle lens and Smart Face Tracking keep you front and center even if you're moving around.

Whether you're recording a video message or chatting on the Web, you'll enjoy a 50% wider view than with most other webcams. When friends or co-workers join you, this smart webcam zooms out automatically to get everyone in the picture.

Talk with better clarity and more privacy. Slip on the included lightweight over-the-ear headset.

The high speed USB 2.0 connection gives smooth, fluid video. The sharp lens and high quality CCD sensor provide clear, sharp images for all your Internet messaging.

TALK FACE TO FACE ACROSS THE MILES

Now you can stay in touch wherever the road takes you. Enjoy everything the Live! Ultra offers in a compact, portable design that connects to your notebook. Try the ***Live! Ultra for Notebooks***.

The 76 degree ultra wide-angle lens gives you a 50% wider field of vision than most other webcams. And the high speed USB 2.0 connection gives you smooth video at 30 frames per second.

This high speed camera is a must-have for mobile warriors to record video messages and email them back to the office or to clients. When your workday is over, relax and talk face to face with your friends and family. Slip on the included headset for better audio clarity and privacy.

Grab our *#1* selling notebook camera

The small, durable and stylish ***Notebook*** webcam goes everywhere you do. And why not? It's one of the most compact cameras you'll find. Drop it in your bag and video chat anywhere you connect to the Internet.

KEEP AN EYE ON THINGS REMOTELY...ANYTIME, ANYWHERE

Watch over your home or business while you're away. Install the ***Live! Wireless*** security webcam wherever you need to keep an eye on the surroundings—the backyard, a vacation home, the office. See what's going on using your Internet-ready PC, PDA, or cell phone.

Install this camera in minutes. No Ph.D. required. This camera is so easy to set up and use, you'll feel like a pro.

Create your own private, secure web address for remote monitoring. Choose a unique web address where you'll go to monitor your Live! Wireless. For example, www.yourname.creativeddns.com. Plus, you can set up 4 secure guest accounts to let family or colleagues monitor the webcam as well.

No need to constantly check in with your Live! Wireless camera. You'll receive an alert via email when your camera senses motion in the area.

It's more than just a security camera. It doubles as a server. Connect a flash memory device loaded with your data files to the wireless server's second USB port. Download your music and more. Then access them from the unique web address you've set up.
